

## Harvest Assembly

Sadly , we are not able to have a Harvest Festival in the church this year but we would still like to celebrate with the children in our classroom. For the next two weeks, I will only set maths homework as the children are preparing their own contribution for the assembly. They spent time yesterday ( Friday 9<sup>th</sup>) deciding what they would like to produce and they now need to prepare it. The presentation can be no longer than 2 minutes and can be on any topic that is related to harvest, farming, food production or distribution. Some of the children have decided to work with a partner and have shared the home tasks. The assembly will be on Thursday 22<sup>nd</sup> October and any food donations will be gratefully received in that week and taken to Stowmarket Foodbank. I will put photos of the children's work on our website page, so you can see their fantastic efforts. Please do not hesitate to contact me with any further queries.
